

Paguro 6500

Powered by a LOMBARDINI engine featuring FOCS technology; a unique injection system that makes for smooth and quiet running. The perfect choice for boats in the 45'-65' range that need to run the generator all day or night.

Peace & Quiet

Cocooned in a 4-stage soundproof capsule to keep noise to a minimum. Anti-vibration feet, both internal and external, coupled with the ultra quiet 1500rpm motor, ensure that the generator runs smoothly. The result is a generator that quietly does its job whilst you relax on board.

Independence

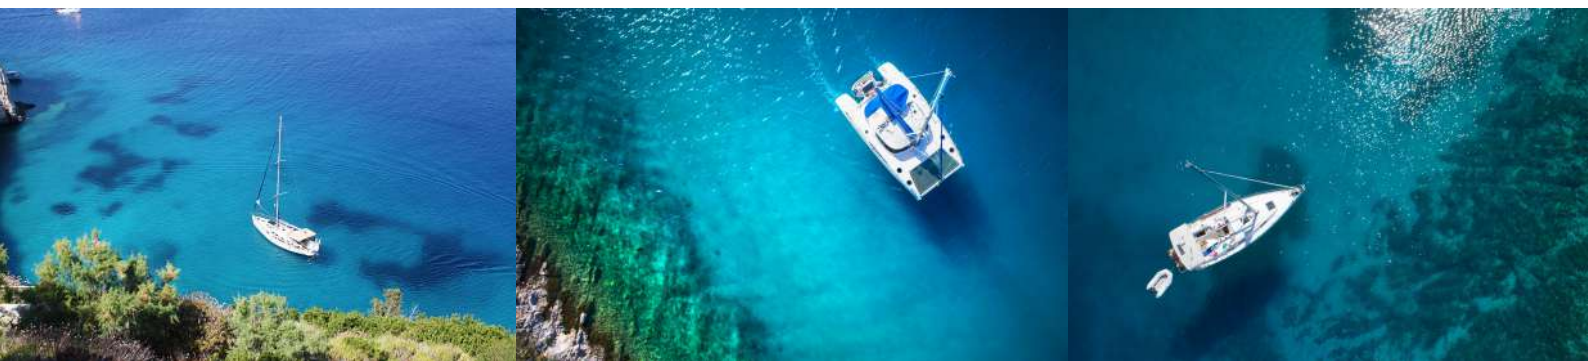

With a Paguro 6500 on board you can enjoy the full potential of your yacht. With a power supply greater than having shore power on board, you'll have the freedom to explore in comfort and safety.

Low Cost of Ownership

Designed for ease of maintenance and single side servicing, with an oil change hand pump for clean and easy oil changes. It also has the added bonus of longer service intervals than comparable generators.

Safe Hands

The Paguro 6500 is a tried and trusted design that has been in successful production for many years. The popularity of the LOMBARDINI & Paguro brands around the globe ensures that wherever you are in the world, you won't be far away from spares and servicing support.

Model

Paguro 6500

Dimensions (LxWxH)

770 x 460 x 620 mm (Inc. anti-vibration feet & all projections)

Weight

170kg

Sound level @ 7m

49 dB(A)

Cooling System

Fresh water cooling via heat exchanger

Continuous output

6kW / 6.5kVA

Peak Current for Start-Up Loads

72A (2 seconds)

Voltage Stability

230V \pm 5%

Frequency Stability

51 Hz \pm 1.5 Hz

Starter System

12V electric start

Remote Control Panel

Paguro 6500 control

Auto Start

Available as an option

Engine Manufacturer

LOMBARDINI

Engine Type

LDW 1003

Engine Displacement

1028-3 ccm

Speed

1500 rpm
